EL RANCHO TIMES

"Welcome to the Ranch" - a familiar greeting used for new students, new teachers, community members, visitors and now — YOU! "The Ranch", a nickname for El Rancho High School, has made its mark as the midpoint of Pico Rivera since 1952. During the past thirty-five years, El Rancho has been known for its excellence in athletics, friendliness of atmosphere, liveliness of spirit and strong academic program.

With a teaching staff of over one hundred twenty certificated personnel, fourteen of whom are alumni, El Rancho has been able to offer a varied, comprehensive course of study in all academic and elective areas. From honors programs in math, English, social studies and science to data processing, computer courses and ROTC, the curriculum excels. To participate in the strong and well-awarded athletic program, and the other equally trophied organizational activities, students must maintain a required grade point average.

Offering such extra-curricular activities as foreign language clubs, spirit support groups, musical organizations, college bound associations, vocational federations and honor societies, El Rancho stresses the education of the whole person. These groups, coupled with the yearly functions of Homecoming, Christmas assemblies, the Junior Senior Prom, Coed Capers, Winter Formal and Academic Decathalon, succeed in rounding out the E.R. student in the fashion of "All work and no play make the Don a dull person."

Its graduates tell the final story. Establishing a Hall of Fame in 1983, El Rancho has honored its former Dons who have been successful professionally. A California State Assembly person, doctors, lawyers, scientists and educators partially fill this Hall.

Rich in tradition, pride, academic and athletic excellence, El Rancho stands tall among its peers. It is our pleasure to welcome you to "The Ranch". Open the book and begin your adventure into a realm filled with pride, merit, fun and wisdom — the Home of the Dons.

Yo Josette is very nice, very cool. very short, very smart? It's been my pleasure knowing you and having in one of my classes even though I really Didn't talk to you much cause you were always so Busy. Keep cool.

Love

Through the history of El Rancho High School, the school has experienced many fashion fads. The fashions have varied from poodle skirts in the 60's, to spandex pants and mini skirts in the 80's. Occasionally some students dress up to add a little spice to school fashions. Once a year, six good looking guys decide to dress up in tuxedos. With their debonaire lapels and duck tails, they escort six young ladies in the Homecoming assembly. Other times, students dress up as their favorite cartoon character in order to prove that they have guts when it comes to costumes and dressing up in them. Most of the time, students just don't have the courage to be different so they wear their letterman's jacket and their 501 blue jeans.

Jossette,
Well, the year is over, thank God. It was fun getting to know you a lot better. I hope we'll see each other over the summer, but if not have a terrific summer and call me sometimes. Maybe we'll run into each other at Gina's if I ever go again. Tell Nenitta I said hi and good luck next year. The Smiths - Love, Veronica Maratalla

The Latest Scoop

Spirit is a virtue to the students of El Rancho. From the beginning of the year, the spirit radiated by the upper classmen was captured by the sophomores and the freshmen. They used it to the best of their ability and helped to make this year a proud and spirited year. Each individual class worked hard to be the best at El Rancho. All of the classes proved themselves at perhaps the most important pep rally, the Parent Night Pep Rally. The senior class got into the action with their "Senior Beach Party." The junior all stars jumped into second place with their version of "The Wide World of Wacky Sports" For the second year in a row, the Class of '89 took first place with their "Toga" theme. Then, the newest addition to the family the freshmen displayed their spirit as the "Pirates of the Caribbean." For everyone, this was a night to remember.

Lifestyles Of El Rancho

E.R.'s lifestyles come in all different shapes and sizes. Some of us come to school to buy the great candy that the different clubs are selling, while some of us try our hardest to get to school on time and always fail. There are others who love the activities and get involved, while some just come to bug the teachers and have a ball. The athletes, the "soc's," the "cha-cha's," and the "rah-rah's" that come to El Rancho are what makes E.R. what it is — a school which is different in its own way. It will remain that way, even though our life styles will always change, we can never change the lifestyle of the blue and grey.

In 1966, the El Rancho High School Varsity Football Team had set a goal. Their goal was to be their very best out on the field and to attain the title of the 1966 National Football Champs. This team became the joy and pride, the true blue and grey of El Rancho, and also the first and only National Football Champs in the history of E.R. Now 20 years later, this great team is recognized for its accomplishment and will always be the true Don pride.

Class of 87,

This year has been very rewarding for all of us. We experienced many things which will help build and strengthen our lives ahead. As president I had the honor of representing an outstanding group of young people-the seniors. This has been an unforgettable experience. The Class of '87 sincerely thanks our great advisor, **Mr. Wlasick.** He helped us to help ourselves. As we end our final year, we can look back on our good times and achievements. We will go on to further our education and meet new people. Most of all we will remember our four years here at El Rancho. I thank all of you for your support. Good luck in the years to come.

Perhaps one of the greatest feelings that two people can share is the feeling of friendship — the feeling when you know that there is a special person that cares, a person who will be there through thick and thin. A friend is a person you can share your innermost secrets with. These pictures are examples of special friends sharing special moments of joy — the joy that two share in a moment of victory, and the happiness of two friends sharing in the spirit of El Rancho. The best of friends will always be there through the years, sharing in your happiness, joy and sorrow.

Seniors Top Gun At Last!

The 1986-87 senior class is the first in El Rancho history to graduate from El Rancho with four years of high school behind them since 1964. Unfortunately, this is the first year that the Class of '87 had the chance to be upperclassmen. They were forced to make the transition from being eighth graders in junior high to being freshmen in high school. Until now, they were never able to possess the feeling of superiority. The Class of '87 was cheated out of being the top guns of any school until their senior year at El Rancho. This year's seniors showed the underclassmen not only pride and respect for their school, but also dedication.

Well Seniors, looks like you made it. The anticipation of the day to clean out your lockers permanently has come and gone. It's time to move on to bigger and better things. Take this moment to reflect upon the past, present, and future. Heed this warning, the preparation for the rest of your life must be a well thought out plan. The time to uplift your roots and replant them has arrived. Everyone must break out of the El Rancho shell and mix with the rest of the nuts. The first step from the secure nest into the wobbly world is always the hardest. Mommy's skirt is no longer there to hide behind so from now on we must depend only on ourselves. In closing, friends, I'd like to say - from here on out, you're on your own.

Proud To Be A Senior

These words rang through the ears of many seniors of the Class of '87. Starting with their freshman year, many experiences took place in their lives that would continue on through their senior year. Their participation and appreciation for their Don Blue Pride grew with the addition of every new high school year. They appreciated their school in many different ways, be it championships or just a plain unity among their class and school. These seniors definitely have something to be proud of.

Such a group of elected school representatives deserve our thanks and gratitude for the long hours of hard work they put in to make El Rancho the very best it can be.

The drill team members know they have pride.

This year's drill team proved themselves to be one of the most involved and active groups on campus. Under the direction of Miss **Sandra Wilson** and drill team leaders **Gina Garcia** and **Lorena Robles**, this group of 33 girls participated in many different activities. They were seen performing at home football games, as well as the exciting pep rallies. The drill team also marched in many parades throughout last year and spread their El Rancho pride everywhere they went. The dedication of the drill team to their organization and to El Rancho had a positive effect on many people. They played a big part in promoting school spirit and were always seen in the stands cheering for the Dons.

It's been a long day for the drill team.

The 1986-87 Pep Club was the pride and spirit of El Rancho. Every Monday the girls gathered in the gym balcony to paint signs to promote school spirit. Among their jobs were painting "run through" signs and stringing cards for pep rallies. They held fund-raisers such as candy apple sales and homecoming ribbons. Under the direction of their new advisor Mrs. Green and Pep Commissioner Valerie Gomez, the pep club gave the El Rancho Dons a new outlook on blue pride and spirit.

E.R. Songs gather after a victorious football game.

Being a Pepster might look easy to some people, but when you really think about it, it is a hard job. During the summer the girls go to a cheerleading camp to learn different cheers and techniques. When school finally started these pepsters were really busy. They practiced football cheers, cheers for pep rallies and their competition cheer. After football season they start to get ready for basketball season. Throughout the year the pepsters go to at least 3 or 4 competitions. At each one they attended, all 3 squads did excellent on their performance. Everyone of these girls are hard working and dedicated to being a pepster. They are proud to be a part of the **El Rancho** spirit.

Singing their famous ASB Card song are a few of the pepsters.

A cadet in the R.O.T.C. program learns what it's like to be a Marine, and may demonstrate Marine Corps physical fitness tests. These young people are taught all of the basics of military life, such as marching and learning the manual of arms with an M-1 rifle. Discipline in R.O.T.C. is very strict. Physical fitness and self-discipline are the two most important factors that the program tries to stress. The rifle team competes with other R.O.T.C. units across the country and the drill team performs in many parades during the year, doing difficult stunts with their rifles. Being part of the marksmanship and small bore rifle team are only some of the many opportunities offered by the R.O.T.C.

Working to meet deadlines was among the 1986-87 Annual Staff's greatest obstacles. The staff gathered during fifth period each day to make this year's Por El Año the best ever. It took the creativity, dedication, and hard work of each member to make the yearbook a success. Trying to meet deadlines was not an easy task. Patience and working together was the key to our success. With the combined efforts of our new advisor **Ms. Connie Battu**, Editor, **Esther LaFarga**, and the entire annual staff, we were able to reach our goals and bring to you the year in review.

Students from E.R. packed up their essentials and passports for a week tour through France. The cool **E.R.** Drama Club shows off its "RAD" style. They happen to be one of the most "Gnarly" clubs at **El Rancho**. Among the clubs currently being edited, the Drama Club has emerged as one of the more outgoing and unique clubs here at the Ranch. During the year, the awesome club explored the world of television by visiting the television studios. They went to see shows being taped such as "The Facts of Life," and "Brother." To obtain funds, they had what they proudly called "Lunch Bag Theater" to entertain fellow students.

President Gaby Contreras, Vice-president Jeanette Herzog, and faculty advisor Mrs. Jontz, helped organize many worthy activities. Helping the elderly, and the handicapped took up much of their time. Santa Clara, California and Toronto, Canada were sites of their conventions during '86-'87. The Key Club takes time out for play amid generous activities. Potlucks, picnics and mountain trips are just some activities in which the members participated. Their cheerful giving has been well taken at the Ranch. Although the club is new, its members and activities are well known both in school and in the community of Pico Rivera.

To the Class of 88,

I'm greatly honored to represent a class that has been most outstanding throughout our three years here at El Rancho. Being Junior Class President, I've tried hard to ignite our class spirit into a unity. We've come a long way to where we stand now! In due time, we'll be Seniors. Until then, I wish the best of luck to each individual.

I would like to express my gratitude by thanking the Exec members and my friends for their advice and support, as well as my Advisor, Mr. Norman, and the Class of '88. Most of all, I would like to thank Chris for making it possible. I know that through him I was capable of sharing my love and happiness among you all.

Sincerely yours,
David Perez

This year's Junior Class cabinet had a big influence on the spirit of the Class of '88. They have always been there to support their president in any way they could, such as going to all the junior sign paintings and other activities. Showing their spirit and pride for their school at the pep rallies, they were able to enthuse many other juniors as well. This fine cabinet has been a big part in bringing together the Class of '88. Soon they will be seniors and will need another cabinet such as this fine one.

ER's Pride And Joy

A great part of the **El Rancho** tradition is the dedication that the students contribute. There are several organizations that the students can get involved in. Each of these extra curricular activities takes hours of dedication. Examples of these are sports, pepsters, band, and drill team. All of these are put together to promote the blue pride of E.R.

Pure Class

Since the day they walked through the gates, the Class of 88 led the way in pride and spirit. They gave the other classes a run for their money and showed who was the best. At pep rallies their spirit was radiated, which forced the other classes to try to do their very best. They were proud to show their spirit at anytime, including morning, noon, or night. But, even through the best and worst of times, the Class of 88 will never give up their love for their Alma Mater. Their blue and grey pride will never die.

Spirited Sophomores!

Pamela Torres-Sophomore Class President

Sophomores,

It has been a great year for us. We have been through a lot of good and bad times. We cheered on our teams and also our class. I truly believe this class is the best. You made me really proud to have represented you. I appreciate the support you gave our class in the March-of-Dimes and in the Canned Food Drive. I thank all of you for your support in the pep rallies. Last year we were good and I'm really glad that we together showed the rest of El Rancho that the Class of '89 could improve. I want to thank my advisors Mr. Dyson and Miss Beni, and also for the endless use of their rooms. I thank the people in Exec for the help they gave throughout the year. Thank you, Ms. Ellis, for making me smile through it all.

Binding Friendships

What is a friend? A friend is someone who sticks by you in good times and bad, someone you can share a secret with, laugh and joke around with, and someone you can talk to when you're down, or when you just need a shoulder to lean on. Friendship through high school is memorable. You often reflect on the times you shared at "The Ranch." It might have been doing homework, going to football games, or just hanging around. You can't buy friends for all the money in the world, because they're priceless. You will always remember things like that, because friends at El Rancho stick together till the end.

"Let's Toga, Everybody"

The soph-o-mores are back once more to dominate the competitive El Rancho spirit. Once again the blue and gray fever has spread throughout this thriving class. As the competition for the label of "head hauncho" races on neck in neck, "89" fails to yield to seniority. They let the rest of the student body know who's "The Boss" besides Bruce Springsteen. Their spirit was enduring as they performed a non-stop toga party at the night pep rally, the biggest pep rally of the year. As the Roman Empire was led to vistory by Caesar, the sophomoric empire was lead to triumph under the capable leadership of sophomore class president Pamela Torres.

Remember what it was like being a freshman? Wonder what your junior year will be like or better yet, do you wonder what your senior year has in store for you? Well, wonder no more, the answers are out there! As sophomores continue in the midst of their high school life and education, they wonder if they'll really survive two more years of high school. Don't despair, sophomores. The years will go by before you know it.

Only Starting

It has been a special honor representing the Class of '90. The change from middle school to high school seemed difficult and complicating. We entered El Rancho as a bunch of kids and now we walk around as a family. El Rancho is such a big school, with big people, new rules, teachers, and classes. There was so much to experience and conquer as the year continued and we became true Dons. I feel this year has been very special to me. It was a learning experience for all freshmen. I would like to give great thanks to our advisor Mrs. Longacre and my cabinet for their support and guidance. As we peak toward our upcoming years, we must hope the next three years at El Rancho will be more successful than our first year. I will always remember how E.R. helped us.

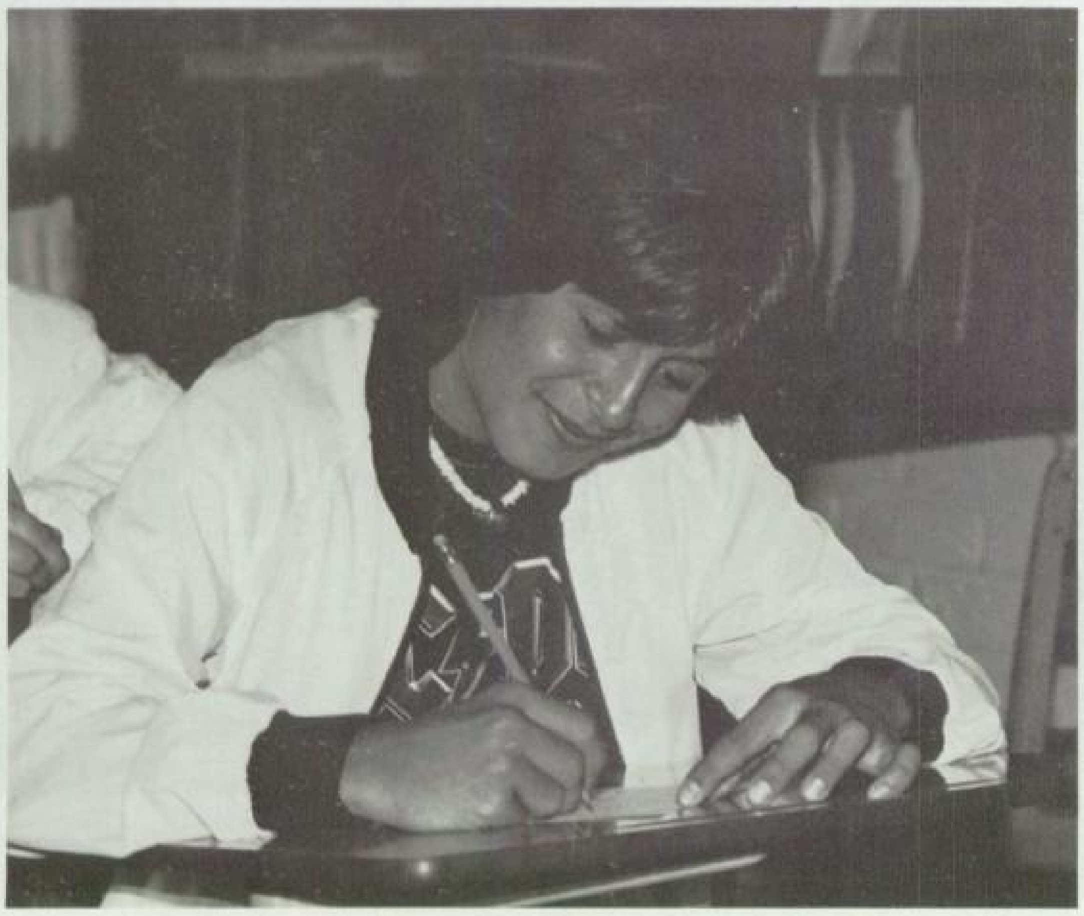
One Of Life's Many Duties

Esmael Dominguez looks proud and confident as he does his assignment.



Freshmen are the new batch of kids here at E.R. The upper classmen often tend to look down at them. But with their pride and spirit, they often tend to be just as big as the rest. One can often recognize freshmen by the way they act and the way they look. At first, being freshmen is like a sore thumb because they usually tend to stand out. The freshmen look like they're fresh and new, while the sophomores look a little run down, the juniors look even more run down, and the seniors look wasted, but very mature. The years haven't struck the freshmen, but when they become seniors, watch out, E.R.!

Well-Dressed With Class

David Rojas works on a project in wood shop.

This year a different type of letter reached the door steps of every Don student. The letter informed the Dons of the standard form of dress they must maintain while attending El Rancho. In interest of the student body, the Board of Education decided to restrict certain types of clothing from the E.R. campus. Despite the list of restrictions on certain articles of clothing, the Don reputation for being well dressed resumed. The student body found even bigger and better ways to combine different and creative clothes and come up with an exciting ensemble.

This year's El Rancho Varsity Football team worked as smoothly as clockwork. As a result of vigorous training since last June, once again they made CIF Playoffs. Together the combination of spirit and dedication pulled them through a competitive year in the Whitmont League. With the leadership of captains **Mike Perea** and **Sal Prieto**, they joined together and came up with a certain style and precision. The Don finesse was indicated all over the field every Friday night. Each player contributed his own special talent, resulting in a string of victories. Much gratitude is due to **Coach Peterson** for pushing the 1986-87 Varsity team into a group of hardworking young men. This year's football team has left us with some truly exciting memories.

Homecoming 1986
Yesterday, Now And Forever

This year marked 20 years since El Rancho won its National Champs title in Football in 1966. Many '66 players came back to share this reunion and to see if the ER football team was still as successful as they were in 1966. Each member was introduced along with the 1966 Homecoming Court during halftime. Earlier that day at the Homecoming Assembly a princess was chosen from each class. From the Senior Class six candidates were chosen and three were crowned as princesses. From those three, one was queen that would be a mystery until halftime. As halftime approached, everyone awaited the arrival of a parachutist landing on the Don field to reveal the mystery. The mystery was solved as a bouquet of roses was handed to **Lupe Infante**, the 1986 Homecoming Queen.

Students Visit Sacramento!!!

On April 9, 1987 at 5:00 in the morning, a group of student leaders from the Executive Commission, Youth in Government, and Salazar, departed for L.A.X. bound for Sacramento. They arrived at the Capitol at approximately 9:30 am and met with Assemblyman Calderon, who spoke on the importance of becoming active members in politics and government. Another guest speaker was Lobbyist Tom Garcia. After a tour of the Capitol Building, they all went to lunch at Posey's where Manuel Zamorano, an aide to Senator Montoya (D), was the guest speaker. The trip wasn't just guest speakers; there were also 2½ hours of fun and shopping at Old Town Sacramento. On the way back everyone was tired and excitedly recounted the experiences of the day. The day was not only an insight into government, but also a day to remember.

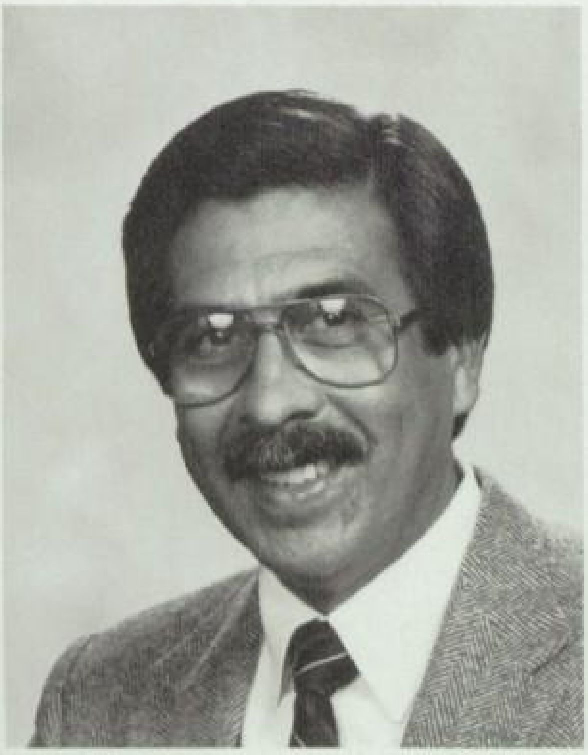
The Superintendent Speaks

Thomas Sakalis-Superintendent

Today, as a society, we find ourselves in a world fraught with problems of increasing magnitude. Foremost among these problems are the preservation of world peace and our democratic form of government, the issue of public health, the impact of the age of technology on our society, and many more. Yes, these problems are great, and their solutions complex, but they must be made. The responsibility of making these decisions will become yours; for the youth of today will be the LEADERS of tomorrow. Success in this endeavor will only be possible if you, as students, take full advantage of the educational opportunity our great system of public education has to offer. For today, more than ever before, man the world over has come to realize that our salvation relies on the education of its people. Many years ago, President James Madison stated, "Knowledge will forever govern ignorance; and a people who mean to be their own governer, must arm themselves with the power which knowledge gives." I therefore urge each and every student of El Rancho High School to pursue your education with a commitment and dedication that will prepare you to meet the challenges of our rapidly changing world by establishing precedent rather than glorifying it; innovating rather than imitating, leading rather than following, and being in the process of becoming, rather than merely having arrived.

May the world's tomorrows be yours.

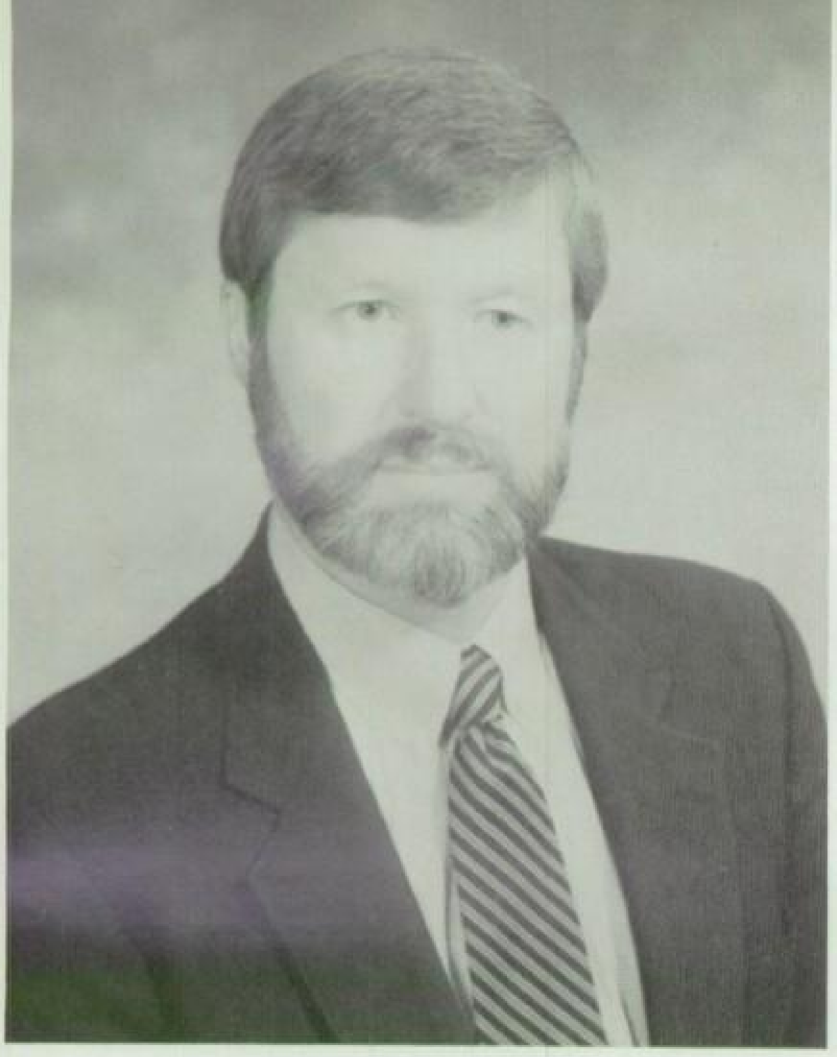


Norbert Genis-Asst. Superintendent

Arthur Narvaez-Asst. Superintendent

Huey Nolin-Asst. Superintendent

Proud Traditions Build Success



John Sherman, Principal

Association with El Rancho High school has been part of my life since its beginnings in the early 1950's.

As a boy I attended athletic events such as varsity football and basketball in the first years of El Rancho's entry into athletic competition; an entry that has established the Dons as the leader in athletic competition in the entire area.

Classes at El Rancho prepared me for success in college; part of an academic program that, in local and county competition, has proven itself the equal of any school in the area. A strong extra curricular activities program has been part of student life at El Rancho from the very beginning. After college, I returned to teach and later help administer El Rancho.

I can say with certainty that today's El Rancho, its students, faculty and instructional program are the best in its history. This year's Senior Class, the class of "87", has continued the proud tradition that has been established over the years.

I am very proud to have been part of El Rancho, as I know the members of the class of 1987 are.

Good luck and success in the future.

With a great deal of work, the Deans and Counselors of El Rancho helped in making this year the best it could be. These well qualified people were always there every minute of the school day to help students with their classes, teachers, problems, and their peers. This year a new Dean, Mike Sepulveda, came to help with the problem of attendance. Our counselors have also done a great job in keeping up with transfers and helping out every way they can.

Extra!!!Teachers Are Real

The most hardworking and incredible people are teachers. Not all teachers are always talking about math or history or even science, but yet students never seem to realize this. On campus there are usually a few teachers who will really be a good friend and are always there for you if you need to talk. Many of these educators are different persons if you take the time to get to know them. Teachers aren't just there to teach us our 1, 2, 3's and our ABC's, but to help us with our futures.

BINGO
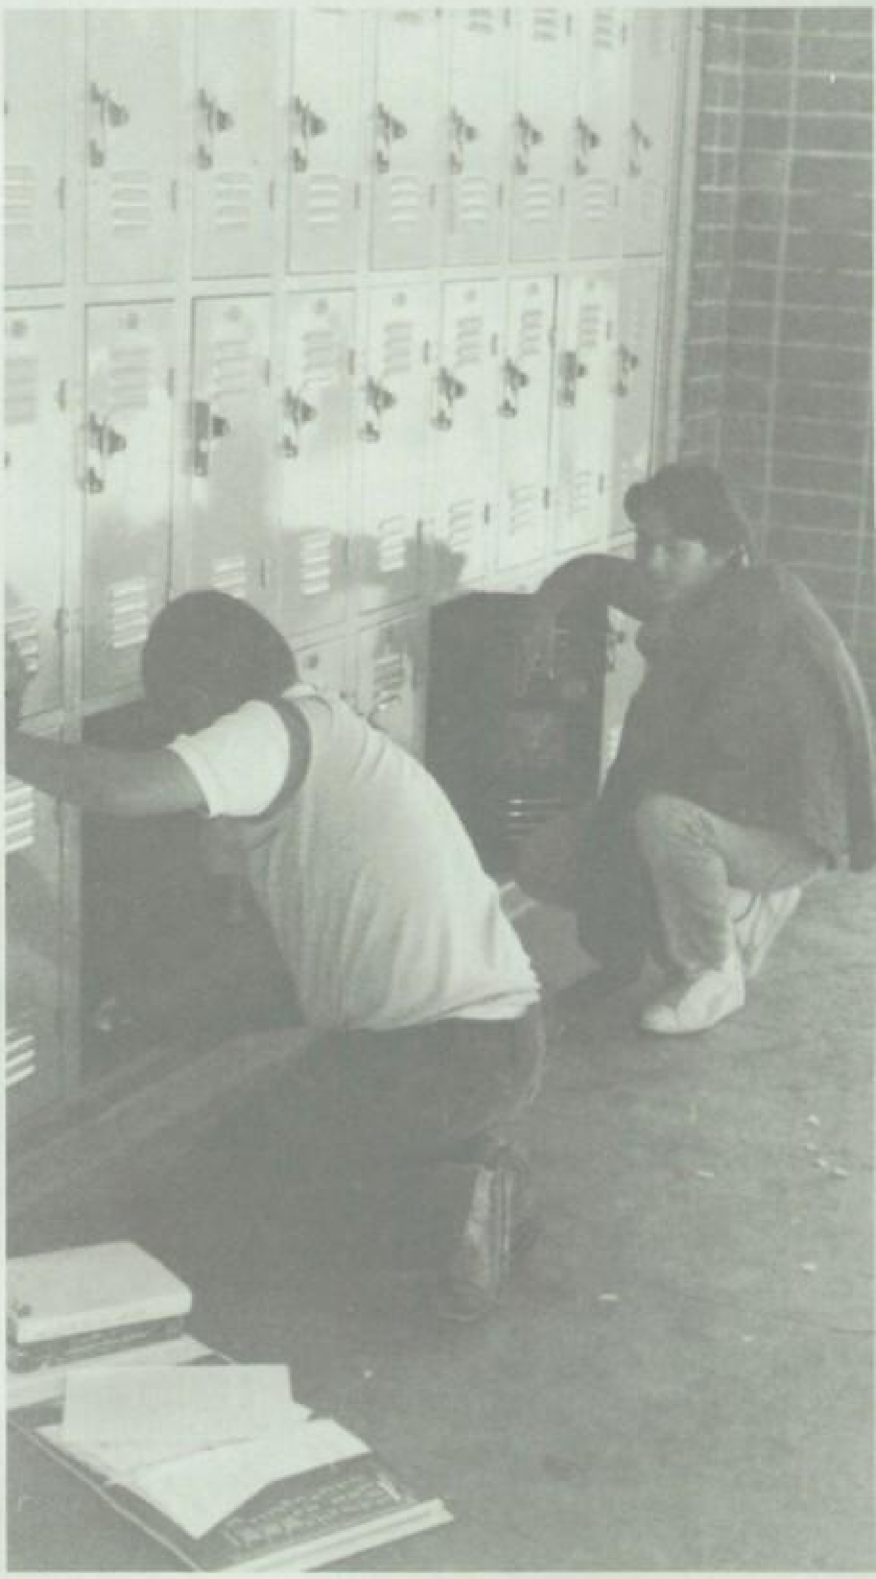
SPECIAL



Another year has gone and history was made. Many of us may look back upon this year and have good memories. Others may look at it as a year of sorrow. All in all it was year to remember. This year's Drama department left a strong mark on our lives with their touching performance of *Tracers*. We also experienced some new things like Bingo every Thursday night and the dreaded dresscode. Life goes on but the memories remain. As the year ends, everyone thinks back, "Could it have been better? or was it the best year ever?" Problems remain unsolved and questions remain unanswered. Everyone will have a new beginning and the end depends upon the individual. The quest for ferfection is neverending.

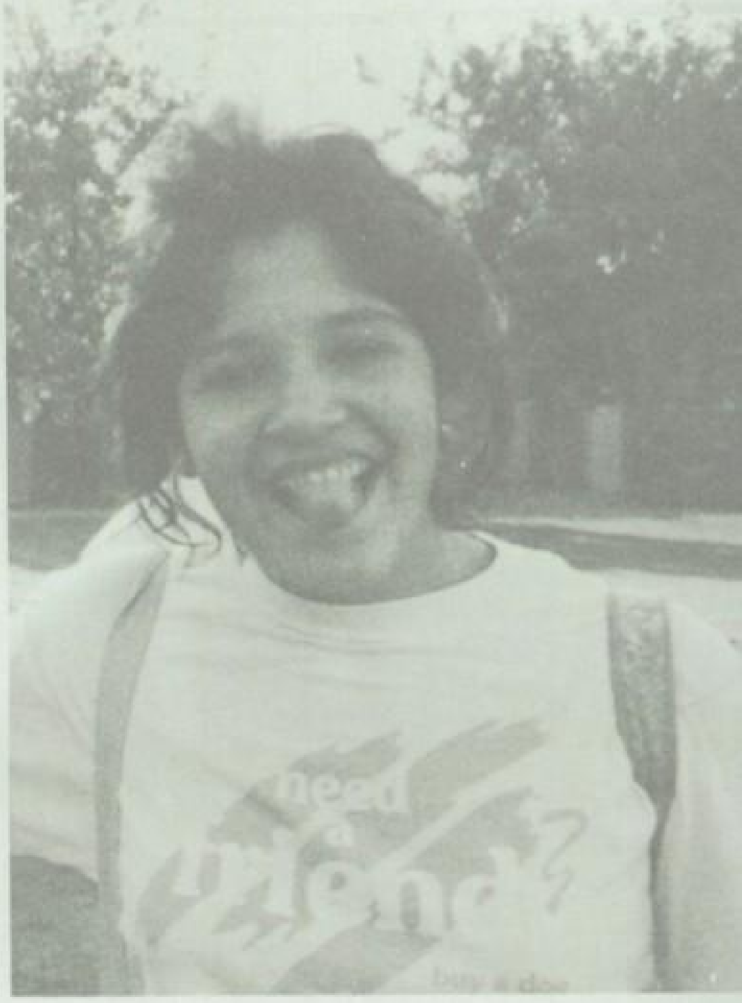
Inprinted in the mind of the El Rancho-ite were acquaintances that can never be removed. The 1986-87 school year will always be remembered for the rest of his life. From the 1st Welcome Assembly to buying annuals on the last week of school, tons of memories have been recorded. This book is not just any ordinary book, but in our special way, a history book. The trials he's conquered have been captured on film and have been displayed throughout this book. He's shared many events with the friends that will be with him the rest of his life. He not only over came the usual obstacles of E. R. life, but things that have happened all over the world. Together they watched the suspense of opening Al Capone's vault, and awaited the announcing of the Winterbelle Queen. On the stage of the Little Theatre was the successful production of the *Odd Cuple*. Another familiar face in the spot light was Paul Newman.

Perseverance was in the air for this year's Seniors. They came through once again by raising the CAP scores. E. R. owed much thanks to the Kiwanis for sponsoring unmerous projects. From painting Handicap signs in parking lots, to raising money for Danny Moreno's much needed computer; the have given their all. The new beginning of the Crossroads development is a sad horizon for El Rancho Dons. The El Rancho-ite has even witnessed the Rose Bird controversy come and go. The fight of the century, Leonard vs. Haglar (A.K.A. Beauty and the Beast) was a great upset. The Concert of the year was a great success, U2 forever! The El Rancho-ite reflected upon the best years of his life that were engraved and will never be erased. No longer will the El Rancho-ite sit and watch the news, for he himself will be making it. We will always honor the Blue and Gray!

End Of The School Year Draws Friends Closer



Looks like everyone made it through all those trials and tribulations. In the beginning of the year they thought this school year would never end, but as the end arrived, they realized how they had taken these last nine months for granted and sometimes wished they could go back and do it all over again. The Seniors realized that Graduation was no longer a dream but a reality. The Freshmen were relieved because they had survived their first year. The Juniors had prepared for that very important date in '88. The Sophomores became excited because next year they would be able to go off campus for lunch and go to Taco Shack. But through the whole year, what kept everyone going were their friends who were always there as company for the games, pep rallies, and lunch. Friends were forever and wer there for us through good an bad times.

Para Ti Hija

Me parece que fue ayer, cuando tu cabecita descansaba en mi pecho y cogía tus manitas entre las mías. Me parece que fue ayer, cuando te vestí, para tu primer día de clases, y hoy llena de orgullo miro que ya eres una linda jovencita, y tengo que aceptar que ya no eres una niña. Yo no importa cuanto tiempo pase, yo siempre estaré orgullosa de ti, porque nunca nadie me comprenderá, de la manera que tu me entiendes porque no solo eres mi hija, sino mi mejor amiga. Felicidades en este, tu gran día, tu mamá que te quiere y desea lo mejor para ti,

Lots of times children find it hard to express how much they love and appreciate their family. Well, I guess I'm grown up now because I want to let you all know how much I do love you. Each and every one of you have given me a special quality. You've all inspired me to be the person I am. I only hope to make you proud.

To my son Anthony L. Ramirez.- Best wishes on your journey to a new world ahead of you. For you and your class the future looks bright ahead, a world waiting for your drive and ambition. With love and affection.

Your dad, Louis H. Ramirez

Congratulations and best wishes to the Class of 87'. May you enjoy this special time of your life.

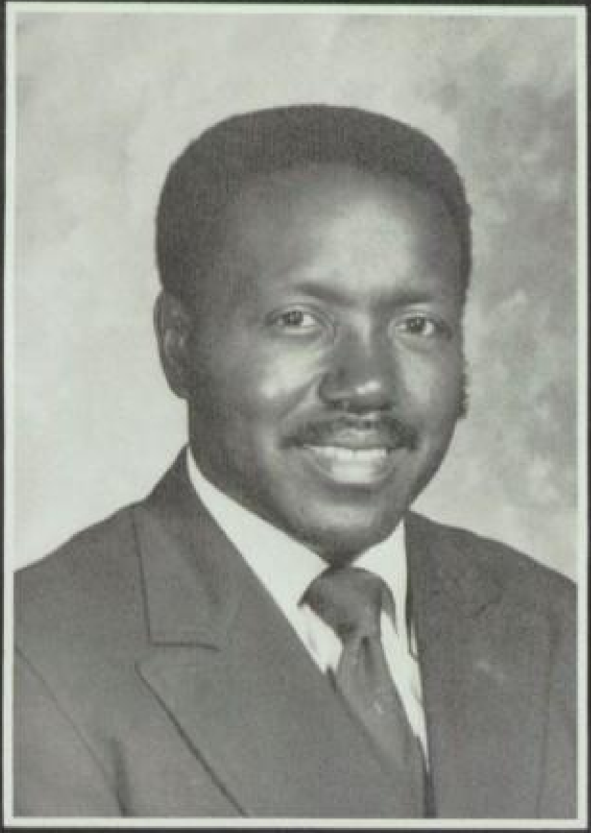
To Anthony L. Ramirez.- A special good luck in your continued education. I'm proud of you!

Love, Armie Delgadillo

Thanks Es for being there when I needed you. Thanks Jay for being there as well. We've had a rough year, but we made it. Congratulations to all our friends that are graduating and these poor souls that have to stay here another year, Good Luck!

Even though we just met this year we feel we feel we have become good friends. Although we have faced some hard times and some problems, we got through them with success. We had some good times and some bad ones, but they all seem to work out for the best. We've had many trials to test our friendship, but they've just made it much stronger.

In Loving Memory



Marcellus Johnson
(1933-1986)

He was my friend. This is easy to understand because we were so much alike.

Marcellus Johnson was born September 15, 1933 to a poor family in Royville, Louisiana. He was the second child and ten more followed. At a very early age, Marcellus helped his family by picking cotton from the fields and, in doing so, he built a strong body, a handsome body. He had a quick mind, and while in school he stockpiled that mind with as much knowledge as possible. Later, he left the life of poverty behind as he graduated from Southern University, located in Baton Rogue, Louisana. For a year he worked as a coach and math teacher and had to leave when he was drafted. After serving four years in the military, Marcellus returned home to marry Stella, a girl he had fallen in love with while in college.

Looking for a better life, he and his wife drove an old Chevy with a U-Haul to Los Angeles. Marcellus substitute taught for Los Angeles City Schools on a day-to-day basis, and later he did the same for El Rancho Unified School District. Eventually he signed a contract for El Rancho, and taught here for over twenty years. And did he teach!

Marcellus felt that you are in school for one reason — to learn. He felt there was never a reason to be unprepared for class and that there was never a reason for a student to be rude or to use bad manners. He also believed in punishment when rules were broken. He was firm, but fair.

Yes, he taught here for twenty years. He taught until his strong, athletic body slowly gave way to A.L.S. When he could not lift his arm to the board to write, he was forced to resign. Then, he tried to tutor students at home, but had to stop when his vocal cords could no longer produce sounds. With his faithful wife, his doctors, and their medicine, he fought the disease until it won on June 20, 1986.

However, Marcellus did not die a poor man, nor did he leave the world without making a difference. He sent many students out, prepared academically, and many unwilling to make excuses for what can be done.

Yes, he was my friend; he was your friend.

> In one sense there is no death. The life of a soul on earth lasts beyond his departure. You will always feel that life touching yours, that voice speaking to you, that spirit looking out of other eyes, talking to you in the familiar things he touched, worked with, loved as familiar friends. He lives on in your life and in the lives of all others that knew him.

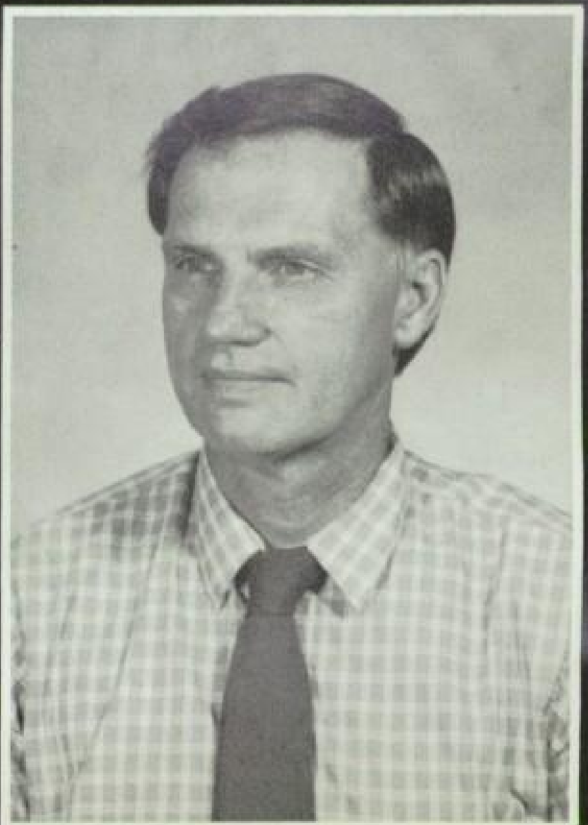
Ralph J. Kane
(1929-1987)



If ever the term, "A man for all seasons" can be applied to an individual, it will fit beautifully with Ralph J. Kane. Rarely has there been the man who could fit the past into the present as well as could our late colleague. Few, if any of us, his friends, and his students, could come away from an association with this fine gentleman without being much the better for it. We will miss him here at El Rancho; indeed, the world is much poorer for his loss.

It takes only a sampling of Jim's achievements to make the point extremely clear. Here was a man who birthed, nursed and nurtured El Rancho's "team teaching" program for a quarter of a century, never resting on the idea that this is enough, this will do it. Here was a man whose reverence for the past, the ancients, the renaissance, yea, even the limited achievements of the feudal period never stood in the way of doing things that would better the educational process. Writer, scholar, and innovator, Jim Kane - a man with the greatest of respect for the English language - was still willing, and able, to distill the complexities of sentence writing down to a point where the student could take the "Kane tools" and become a writer in his own right. It would take much searching to find anyone in the teaching profession who was more expert in bringing things together.

To those who were fortunate enough to share the classroom with Mr. Kane, the picture of a true scholar in operation will never be erased. He would agree, one is sure, with the description of himself as a rumpled in dress instructor, but modesty would preclude his taking much credit for the quality of his work. That factor he would leave to his audience, and there is no question about the superlatives that must be used to even approximate the impact that he had on all. Although he left us with much that he wished to accomplish, he also left us with much that will live on. El Rancho's Ralph J. Kane has left his mark on his school and its people; we are all better off for his year at "The Ranch." It is with affection and appreciation that we say, "Goodbye, Mr. Kane."
